WoULD IT BE WISE?

We do not know how far a Liberal Government is prepared to act upon recommendations from the National Liberal Federation but it is reasonable to expect that suggestions from that direction will be treated with a good deal more consideration than if they were to come from C.C.F.-era of Conservatives.

It discovered that there should have yielded more than \$3,50,000 in feel instead of something over \$3,00,000 which it being collected. LEVEL CROSSING HAZARD

It has taken a long time, and has entailed an appailing cost in the lives of Canadians, to bring authorities in Ottawa to the point of being disturbed about the ever-mounting death toll from level crossing accidents. It is now reported, however, that some action to-diminate this

mounting death toll from even treasure, more than the hazard is contemplated, so more action to-eliminate this hazard is contemplated, as conference attended by representatives of the provincial government and the Deard of Transport Commissioners be called to study ways and means of coping with the level crossing situation. The beard is the final authority in this matter. It deeddes on all questions of eliminating level crossings and is the arbiter in apportioning cost between the railways and the multiplatification.

There have been suggestions that the Board should set speed limits for trains at all crossings but it is pretty well established that a train travelling 25 or 30 miles an class are rapidly processor of the pretty of the state of the state

Blue Bombers, Eskimos Clash Tonight In Western Football Title Series

What this department and the radio has tried to point out since the beginning of the hockey season, was painfully avident in Peterberough last night.

And that is the Glen Roy seniors need a defence, and need it badly. And it's about time sentiment was taken out of hockey and to hell with hurting someone's feelings.

A nine-nothing defeat is not to be specsed at, and po erborough team was ever nine goals better than a dieville squad and you can go vice versa on that one.

The Glens played a lackdalsical game and seemed to lack the old fire and hustle. They were outplayed by a mair! Peles team which was bolitered to excellent advan-tage by three players from Middand, to wit, Adams, Spiker and Henderous

We are not aware of what happened, but the Glens apparently could not get untracked. They couldn't score yeals and the Petes forwards racing in, racked up a con-riseding yeal margin.

The Petes have emerged from the fog of confusion th what appears to be a smart squad. And we hear that blody was more surprised at the victory than the Petes anarement.

The senior group this season is a tough one. In fact we believe it is the toughest of them all. There is not a pushover in the whole set-up and there should be some thrilling battles before the playoff whistles toot. But it's the same old story. The Belleville squad, and we repeat has got to boister its defence division if it wants to keep up with the group Jones'.

If you can believe the fight experts in Gotham, the heavyweight champiouship trail will have a far brighten golden hue for Rocky Marciano than it had for the vener-able Jersey Joe Walcott.

Jersey Joe after winning the title distained all offers tend his hard-won bauble, under the impression that en rememba, personal appearances, and other shekel-producin into would overflow the Walcott coffers. But alsa, 'twas now What Joe made from these sources wouldn't buy an extr for pensis for a three-year-old.

But if you believe the Broadway tub-thumpers, Rocky and his manager Al. Weill will be able to paper the parior with 100-dollar bills within a very short space of time.

In fact as one writer puts it, "Welli is so bury taking in money these days that he has been forced to hire extra help just to see that none of the green stuff gets thrown out with the garbage".

In fact the leaf lettuce is so thick in the garden of the Mar-lano-Welli haclenda that the strong boy from Brockton who rill give the aging Jersey the chance to regain his title either hards or June next year, will fight but once annually there-fter— if he wise.

So much in fact that he has been telling International Box-ing Club prexy Jim Norris that "we should wait and hold it suddoors and draw a million and a half, easy."

"Rocky and me" says the chullent Well "want to get this ob off our hands so we can make some real money. We'll fight six dones a year, That's plenty enough for a champlen to flight and besides we can make more getting around the country than ighting every three months."

Weill has no intention of letting Rocky grow barnacies on his hull, nor allow him to "stay put" in one place any loange, fikan noceasary. The champles is scheduled to fight in Carseas, Yenexuela in December and later with Weili will spend a "whole week" in Las Vegas. Two clubs and a helef will pay them 313,000 for the seven-day appearance.

And Weill modestly admits, "It aint the money, but I'ver been there and I figure it would give me a vacation."

Marcians is rapidly brooming wealthy, and it's to be hoped he looks after it. He has a perfect example in the financial history of Foe Louis, but it must be said in his favor and that of his loquacious manager, that they at least know she wains of a dollar.

GENERAL @ ELECTRIC VHITE LAMP

The G-E White Lamp - bright all-over - is designed to reduce the risk of eyestrain when you're studying, reading or doing any "close" work. This new kind of lamp bulb is four ways better. It softens shadows so they're hardly visible . . . reduces reflected glare . . . spreads light evenly over the entire surface of the bulb
... keeps its cleaner, whiter beauty for life.

This remarkable new lamp—the result of years of uncessing research and development— is typical of the persistent efforts of this Com-pany to make G-E Lamps stay brighter—longer.

JOIN THE 1000 who switch to DOMINION THIS WEEK

"Come on, Ruth! We're on our way to shop at Dominion. Why not join us?"

"But girls, I never shop at Dominion!"

That's what we used to say too, Ruth. But we tried Dominion once and found we'd been missing plenty. Everyone's much more friendly at Dominion. And there's a greater variety from which to choose."

"Yes, and even more important, you really cut food costs at Dominion. Why, I've found that I save enough on food to buy more clothes . . . more entertainment . . . more things for the house."

In the past year an average of 1,000 women a week have switched to Dominion from other food stores. That's 50,000 in a year! Below are photos of just a few.

If you are like Ruth and mover shop at Dominion, try it this week. Join the 1,000 who discover this week that they can feed their families better . . . for less . . . at Dominion!

B-E-L-L-E THEATBE - STARTING MONDAY

JAMES STEWART DOES IT AGAIN!

The true-life story that fascinated 50 million readers of Reader's Digest, Collier's and True Magazine is the perfect vehicle for another incomparable performance by James Stewart. Not since his role in "The Stratton Story" has he given the screen such a portraval as "Carbine Williams" - a love story, and a dramatic page out of the life of a chain-gang convict who fought his way back to an honored place in society.

Moube you should cut this xibbon!

Of course, when a new bridge or highway is com-pleted, it's traditional for some prominent citizen or government official to cut the ribbon in the opening ceremony. And yet...

Often this honour might be awarded with good reason to any one of the nation's life insurance policybolders.

Why should they deserve this distinction?

Because it is their premium money, part of which

is invested for them by life insurance companies, which makes it possible to build many such useful public works. For only roads and bridges, but electrical power sations, waterworks, stores, homes, office buildings and industrial plants are built with the help of life insurance dollars.

So here's to the life insurance policyholders! While they provide financial security for their families and themselves, they also help to make Canada a better land to live in!

A trained life underwriter—representing one of the more than 50 Canodian, British and United States life insurance companies in Canoda—will gladly help you plan for your family's security and your own needs in later years. Rely on him!

Compare the VALUE as Well as the Price! And You'll Choose

Tubes or Figure Blades..

Here's Why

Value extends far beyond initial price and is measured in terms of performance . . . and it is performance that sells C.C.M. More leading figure skaters and hockey stars choose C.C.M. than all other makes, simply because they know from experience that you can depend on C.C.M. . . . depend on the craftsmanship, the materials and the reputation that make C.C.M. the most familiar name in skates. Consider the following three important points and see if you don't agree:

C.C.M.'s exclusive "chrome-on-nickel" finish gives lifetime protection against rust and corrosion.

C.C.M. boots have full-grained leather uppers with no splits or substitutes. This tough, pliable, moisture-resisting leather is specially leated to ensure a snug, body-supporting fit.

You can buy a genuine C.C.M. Matched Skating Set for as low as \$8.95. C.C.M. quality and value are within reach of everyone. Before you buy, compare C.C.M. for value.

When a bank manager was transferred recently a group of citizens wrote the bank in tribute to his sense of public service:

"During the time he was here, we found him to be a very valuable citizen. He always took a deep interest in our community, so we feel we have lost a community, so we feet we have lost a valuable asset. However, we feel sure that his replacement will be made with a man of similar calibre."

A bank man, by the very nature of his work, becomes part of the life around him. During his training in various branches, and as he takes on growing responsibilities, he learns more and more about people and how his bank can help them. And he brings to his community his personal readiness to serve in any way he can.

Richard Broke NHL Record But Max Bentley Tops In Point Production

CHIPS OFF THE SPORTS BLOCK By GEO. H. CARVER, Sports Edit

It wann't the best locker in the world and members of beth ieans forcet for the most part their practice in-structions in the heal of health. But it was as proof as what is usually dished up in the first game of the season and gave ample critices that there will be plenty of exciting punior "R" battles before the dew worms pake their mostis through a greening carth.

As our Mr. Goodfellow remarked, "Davey Jones had some-thing in his locker that paid off in the overtime period." Davey had that and more besides. In this corner's opinion, Davey is voted the "player most likely to succeed," and the silm young opportunit proved that has night.

"Red" Decar's crew had the game in the bag, but a defence lapse in the dying moments gave the hard-fighting Kingrion View the opportunity they wanted. And they made no mintake, Maxie Jackson has a fast-skating crew of yearsgivers and like Decar's Hawks where they get the prea-tice writables sort of their systems, will be one's the long-

It was anybody's hockey game from start to finish and le have gone either way. But young Mr. Jones popped up it seconds to go and produced the winner.

It is not fair to judge the merits of either team on last alghi's performance. Both played ragred hocker with plentiful globe of miding loosed in. But that it expected in any extain raiser and we'll bei our granapays's store chop-pers that both Kingsten and the Hawks will come up with some spine-lingling effect ere very long. They gave evidence of plenty of shiftly last sight.

Allistor's Bathing Memorial High School football team will cross gridfron raplers with unbeaten Albert College here next Sathrday with the COSSA senior "B" championally at state. The Alliston team took Grimsby out of contention last Saturday by a \$2.18 score to stretch their seasonal record to nine wins and one defents.

Up around Alliston way they think mighty highly of the fidiron feats of the Banting Memorial's knowledge knibblers, hery took Barrie, Orillia and Midland in their stride to win a Georgian Bay district tills and went on to defeat Grimsky, isgars District fillists. Their loss defeat came at the hands the Peterbrough C. I. senlor squad.

But they'll know they've been in a ball pame after the listle shrills the curtain-fall in Sakerday's game. The di-sand-Black has per to trace feets and "Sechelle Boys" of highly conflicts their record will be maintained. In any and it should be a "beart," of a ballyame and feetball so of this district should not pain it up.

Is Conn Smythe, Toronto Maple Leafs "Pistol Pete" kick-ing himself in the figurative pants for the hig "deal" with Chi-cago, or was he just "miking" to that radio sports announcer in an interview Saturday evening.

For the dynamic Smythe when asked to pick an all-am as of performances todate in the National Hoc Learne, came up with, guess who, as his gralle selection That's H, Al Rollins, one of the Leafs "D.P.'s" who went to Chicago Black Hawks.

Max Bentley's sparkling display so far this season had the Leaf's brinkingsi tern between love and duty. Faithful as the Yellowshoon Park grayer to Treder Kennedy, Smythe compressiond by naming both to the pivel spot of his myth-lean squad. Behind the blueline he chose the Red Wings trader Lea Reiss and Quackenbush.

Smythe still adheres to former opinion that Rocket Richard to the greatest winger extant. He chose the Habitant flash for for front-line flank spot, commenting, "I would just like to have the former one year on a team of mine." The other winger choice rax, of course, Fed Lindsay.

Smythe was of the opinion there should be more ref-es in the National League. "We see the same old faces often," he said.

"And," he closed, "who wants to see his wife every

Should you happen to be at a Queen's University senior football game next year watching a starry halfback plunging through for hig gains, the years gentleman could be Master Gary Schreider, son of Ed. and Mrs. Schreider of Twente and formerty of Belleville.

The big backfield far who last week won the scoring cham-pionable of the ACOC for the third year in succession, wound up the season in a blaze of glory as EA. Ritchae's College whip-ped De La Balle by a one-sided score for the conference title. Cory carried the hunt of the Irithi static ripping the big I as Salle line for large gains. He scored the final tolethown of the pane bringing his season's tole lipsint to 41.

AND FOUND THAT I CUT FOOD COSTS TOO!

"One Sunday last winter we had dinner at Mother's. The roast was simply wonderful! So tender and juicy! So full of that rich, beefy flavour . that makes men drool."

"You must have paid plenty for this special roast," I sighed. "Wish I could afford it."

"You can", said Mother, "because it isn't a special high-priced roast. Why I get wonderful roasts like this at Dominion every week, and so can you."

"She was right! I've never had a disappointing cut of meat from Dominion But the biggest surprise of all is the way I've cut food costs by doing all my shopping at Dominion. I save enough to buy lots of things I couldn't L'iord before!"

Throughout this page you'll find photos of a few of the 50,000 women who have switched to Dominion from other food stores, in the past year. Join them at Dominion this week and find out why . . . for yourself!

Before and After...

Before you invest, investigate::::is just good common sense: And yet, year after year it is amaxing how many people:::: good sensible people too::: fail to do just that:

people too ::: lait to op just that:

Bying securities on tips, on numours, without
examination, or haying on the advice of uninformed
people, very often causes many an investment
headache. Better Business Burseaus are kept busy.
Securities Commission officials look into innumerable complaints, and securities are purchased which
sometimes turn out to be:::"not what I thought."

Before you invest, investigation is good o sense. After you invest, investigation is also good common sense. "See your dentist twice a year" is not propaganda: z: it is preventive dentistry. Most people think it good business to check trouble before it starts or, at least, before it becomes serious.

To have your investment adviser check your securities at regular intervals makes sense too. Conditions change, industries change, markets change. To "put them away and forget them" is not good ::: it's not good for teeth, and it's not

good no securities:

Our organisation is equipped to help you investigate before you invest and .:: ofter you invest, to help you by regularly clocking your securities to see that your finds are working to best advantage and to see that they are doing for you what you want done. Any of our offices or representatives will help you ::: drop in or write, whichever is more convenient.

The gallant Bantingers were proof in their praise of their conserors. They fought here and well and gave all they had in touch brotling battle of the "likes" Both iron's walls were gritting often and hard. At Winter Fair Because of Rain

TORONTO (CP) — All the farmers were smiling at the Royal Winter Fair yesterday — Whether they were prize winners or not.

There was not enough molsture to fill the dry wells and cisterns but pasture land benefitted and in many parts of the province illevation are still in the fields.

SCENE 1. A new home being constructed in a Canadian Community.

Playing a vital part behind many construction scenes like this is a man who exempli-fiest millions of Canadians. He's the typical life insurance policyholder—a portion of whose premium money is invested in new homes, stoces, roads, power plants and other useful works.

SCENE 2. A famous Canadian medical

e man who plays a key role "backstage" in this scene, too, is a life insuras icyholder. Thanks to him, the life insurance companies are able to contrib ds to assist various medical research projects. Their aim: to belp Canadians I

SCENE 3. The production line of a thriving Canadian industry.

Here the life insurance policyholder renders another valuable unseen service— because the moory he puts aide for his family's security also helps to keep the nation's economy trong. As the backbone of our expanding defense effort, a strong economy is important to all freedom-loving Canadians.

Happy ending: Every life insurance policyholder should take a bow for his performance behind all these scenes. For, while he prevides security for his family, he also helps in these ways to make Canada a better land to live in!

nal dependability

When you drive a 1953 Dodge, you have the promise of the smoothest, softest, most stable ride you have ever experienced in a car in the lower-priced field.

Here's how this new ride has been engineered.

It's a steadier ride because of a wider frame, a lower centre'of gravity, and the new positioning of the wider rear springs.

It's a more level ride, the result of a synchronized springing and scientific weight distribution.

It's a softer ride because of the new principle.

Oriflow shock absorbers, and new, wider springs which absorb
most of the small road shocks.

Be one of the first to experience this thrilling new ride. Arrange today with your Dodge-DeSoto dealer

I switched to DO for a friendlier atmosphere

. AND FOUND THAT I CUT FOOD COSTS TOO!

"Why, even though I've just switched to Dominion, I feel right at home. Everyo so friendly! The grocery clerks are so eager to give me information ... the man at the meat counter got me exactly the roast I wanted... and the produce clerks, too,

"And now that I have my bill I can see that all the little savings I made have added up to a really worthwhile big saving. No wonder so many women have switched to Dominion!"

Yes, more than 50,000 women have switched to Dominion in the past year ...
for various reasons ... and then found that they cut food costs too! You'll find photos
of a few of the 50,000 throughout this page. Join them at Dominion this week!

Last year the show grossed \$137,000. This year with addition-evenue, television which brings in \$7,300, radio worth \$43,500 film rights worth \$1,000 the take will be upped.

Expenses last year emounted to \$21,800 which paid for advertising, bands, bootballs and officials' fees. The stadius replay was \$20,037. (No children allowed).

When the expense smoke was cleared the Sasky Roughles and the Ottawa Rough Riders drew cheques for \$39,691. That will buy a lot of leather armor and pigskins.

All four clubs share in the Big Four playoff receipts. The winner guts 39 per cent and the locer 48 per cent. That's right. For the loser does not get the big chunk in the Grey Cup final. The clubs finishing third and fourth grab 18 per centum of the lost.
